

# FRANCISCO REBOLLEDO

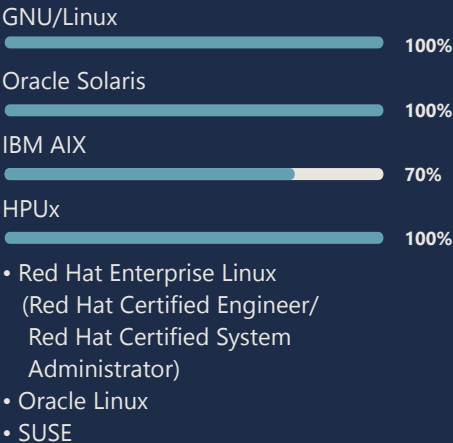

Information technology professional with 14 years of experience in the area, managing LINUX / UNIX operating systems within production environments of large companies such as banks, mining companies and telecommunications.

I can detect and identify system issues and solve them effectively. This allows me to guide teams into a healthier environment to achieve customer satisfaction.

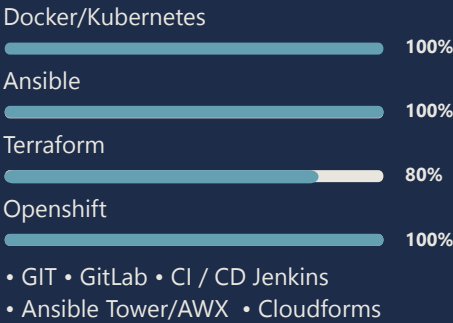

## SITE RELIABILITY ENGINEER

### SKILLS

#### • Operating Systems

#### • DevOps

#### • Programming Languages

- UNIX Shell scripting (ksh, csh, bash)
- Python
- PHP
- C++

#### • Cloud

- AWS - Amazon Web Services
- Microsoft Azure
- Oracle Cloud

### SOFT SKILLS

Troubleshooting

Teamwork and Leadership

Results Oriented
